## Diet & Allergies

Please inform a team member before ordering about any specific dietary requirements that you may have.

Unfortunately, it is not possible to guarantee that our busy kitchens are completely free of allergens. Due to fryers being used for more than one product on the menu, there is a small risk of cross-contamination of products that are deep-fried.

Allergen information will be kept up to date and should be checked each time you visit, as we may update recipes from time to time.
